STORAGE FACILITIES AT BELAYA TSERKOV AIRFIELD

25X1D

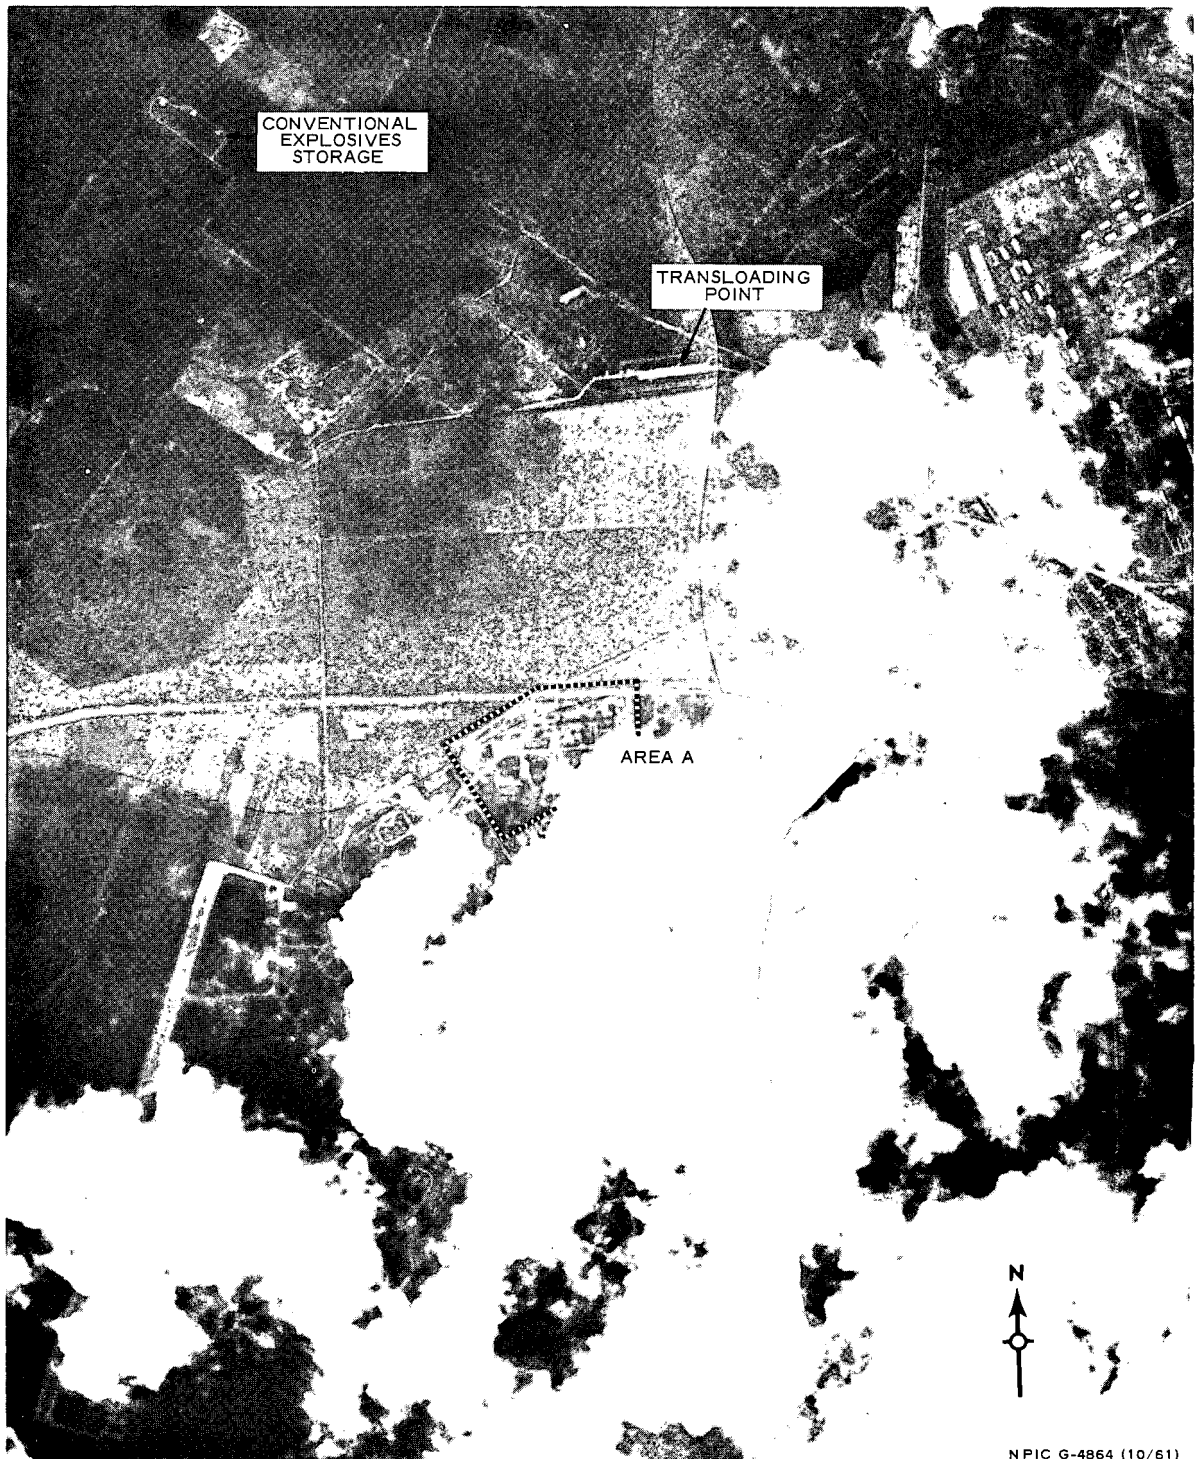

Belaya Tserkov Airfield (49-48N 30-02E), located 2 nautical miles (nm) west of Belaya Tserkov, was covered by photography of KEYHOLE  (Figure 1). An area .9 nm east of the northeast end of the runway (Area A) was at first described as "a probable unconventional weapons storage area." 1/ Re-examination of this photography has now resulted in the identification of this area as a possible aircraft servicing area.

25X1B

The photography does reveal a conventional explosives storage area located approximately 2 nm north of the north end of the runway. This area is connected by road to the airfield and also to a rail transloading point (Figure 1) that is probably fenced.
